

Appendix to Behaviour Policy 2019-2020

This appendix is to cover the changes to the provision due to the CoVid-19 pandemic. It covers the provision for children of Key Workers and those deemed vulnerable as well as any wider re-opening of the school from 1st June.

Expectations

The normal school expectations remain in place. We also expect that:

- Children will maintain a 2m distance from other people
- Children will remain in their 'bubble'
- Children will follow the instructions from staff about hygiene and health and safety

It is accepted that children will find social distancing a challenge. However, we expect that they will try to follow the new expectations and procedures to the best of their ability. They must respond immediately to any instruction given by an adult with regard to the health and safety of themselves or others.

Consequences

If they wilfully refuse to comply with the expectations, procedures or instructions from adults the following will happen:

1. Initially given a warning by a staff member and given a short time to alter their behaviour
2. Removed from their bubble by a member of the SLT if they persist with the poor behaviour; they will be given 10 minutes to reflect and respond to instructions, if they are then safe, they will be returned to their bubble
3. If they revert to the unacceptable behaviour they will be removed and their parents will be called to collect them.

If they reach point 3 this will be deemed an exclusion, in line with the official DfE exclusions guidelines. The Headteacher, or Deputy Headteacher, will decide the length of exclusion based upon:

1. The severity of the incident
2. The number of previous incidents around health and safety during the COVID-19 pandemic

Before returning to school the Headteacher, or Deputy headteacher will hold a return to school meeting via the phone or virtual meeting space. Expectations will be made clear.

If there are continued wilful infringements of the expectations and procedures then the school reserve the right to carry out a risk assessment to decide if the child is safe to attend the provision during the current crisis.

Children with disabilities or EHCPs will also be expected to follow the expectations and procedures however leaders and staff will allow more time for them to change behaviours and comply as long as the risk to others is not severe.
